**Public  
Works**

Volume/95

January/December 1964

Published by Public Works Publications

200 South Broad Street, Ridgewood, New Jersey

*This Volume of  
PUBLIC WORKS is  
available on  
microfilm through  
University Microfilms,  
313 North First Street,  
Ann Arbor, Michigan.*

**ANNUAL  
INDEX**

## January-December 1964 • Volume 95

[illegible]

## Surface Maintenance

Pressure Grouting Technique	Jun.—97
Raises Sunken Slabs	Jun.—97
Modern Asphalt Storage Plant Saves Money	Jun.—100
City Streets and the Seal Coat Problem	Jul.—98
Do-It-Yourself Carpet Coating	Aug.—106
Reducing Street Maintenance Costs	Oct.—127

## Surveying Methods

Electronic Distance Measuring Device	Feb.—114
Base Mapping and Its Benefits	May—120
Selamograph Speeds Subsurface Investigation	Sep.—98
Geodetic Surveying Without Labor	Oct.—158

## Traffic Control and Signs

Striping County Highways at 20 Miles per Day	Feb.—108
Developments in Traffic Simulation and Control	Mar.—98
New Signs Ease Traffic Snarls at Shopping Centers	Mar.—107
Ingenious Machines Aid in Painting Highway Markings	Apr.—89
Sign Cleaner	Apr.—132
Converted Utility Ladder Truck Facilitates Sign Washing	May—92
Traffic Control During Construction	Jun.—153
Control Traffic—Don't Let Traffic Control You	Jul.—96
Crosswalks Marked with Striping Tape	Jul.—132
Problems in Effecting Uniform Traffic Signal Control	Aug.—90
Metal Strapping Speeds Sign and Signal Installation	Aug.—116
Test Determines Service Life Cost of Pavement Markings	Sep.—129
A Low Cost Solution to Traffic Congestion	Sep.—132
Computer Aids in Urban Transportation Planning	Oct.—128
Emergency Traffic Control Invoked in Seconds	Oct.—144
Consider the Four-Way Stop	Nov.—104
A New Look for an Old Town	Dec.—90

## Turf and Roadside Maintenance

Establishing Slope Vegetation	Jan.—73
Big Mower Provides Better Service at Less Cost	Feb.—97
Mowing Difficult-to-Reach Slopes	Feb.—128
Litterbugs Not Psychiatric	Mar.—110
Landscape Development and Maintenance for Traffic Safety	Apr.—106
Steps for Planting and Maintaining Highway Slopes	Apr.—186
Turf Management Stretches Maintenance Dollars	Jul.—76
Reach Out and Cut!	Jul.—91
Kentucky Fights Litterbugs	Oct.—103

## Two-Way Radio

Two-Way Radio Saves Miles and Man-Hours	Mar.—136
---	----------

## Weed and Brush Control

Use of Herbicides Under Asphalt	May—110
Turf Management Stretches Maintenance Dollars	July—76

## REFUSE COLLECTION AND DISPOSAL

### Collection Methods

Refuse Collection Train Improves Service	Jan.—99
Planned Refuse Vehicle Replacement: Better Service, Lower Maintenance	Mar.—105
Second Community Adopts the Paper Bag Refuse System	May—117

A New Approach to Rural Refuse Collection	Jun.—121
Reorganization Cuts Refuse Collection Costs	Jul.—110
Computing the Cost of Refuse Collection	Aug.—122
Bulk Storage and Mechanized Collection of Refuse	Sep.—130
City Saves With Refuse Transfer System	Sep.—142
Disposal of Bulk Wastes	Oct.—100
Paper Bag Disposal System Finds Ready Acceptance	Nov.—71

### Incineration

Unique Incinerator Develops Power and Provides Salt Water Conversion	Apr.—90
Incineration Experience at Hempstead	Apr.—95
Clearing Refuse from Storage Pit Corners	Jun.—131
Incinerator Model Convinces Public	Jul.—94
Steam Generation From Incineration	Aug.—92
Incinerator for Harbor Debris and Demolition Materials	Sep.—140

### Sanitary Fill

Gas Production in a Sanitary Landfill	Feb.—84
Starching the Fill	Apr.—162
Grouting a Refuse Fill	Jul.—133
Measuring Gas Escape from a Landfill	Sept.—163
Disposal of Bulk Wastes	Oct.—100
Landfill: From Eyesore to Asset	Nov.—95
Fundamentals of Sanitary Landfill Operation	Dec.—88

### Other Disposal Methods

Turn-Key Composting Plants	May—86
Antarctic Refuse Problem	Jul.—118
Composting for Auckland, N.Z.	Jul.—146
Disposal of Bulk Wastes	Oct.—100
A New Look at Refuse Composting	Oct.—131

### Costs

Planned Refuse Vehicle Replacement: Better Service, Lower Maintenance	Mar.—105
Cost of Street Sweeping and Refuse Collection	Mar.—138
Reorganization Cuts Refuse Collection Costs	Jul.—110
Computing the Cost of Refuse Collection	Aug.—122

## SEWERAGE AND SEWAGE TREATMENT

### Finance, Legal and Planning

Borough Wins Claim Against U.S. for Sewer Damages	Feb.—160
Problems of Wastewater Disposal in Suburbia	Mar.—120
That Attractive "House" May Be a Pumping Station	Apr.—86
Highway Location Prompts Consolidation of County Sewer Districts	May—99
"Watch on the Raritan" Monitors Water Quality	May—112
Slow Motion in Sewage Treatment	May—161
Municipal Waste Treatment Needs	Jun.—80
Pollution Abatement Progress in Ohio	Sep.—100
Joint Action Assists Pollution Control	Sep.—122
How Florida's Sanitary District Law Has Helped Pinellas County	Dec.—71
Sewer Planning for a Metropolitan Area	Nov.—87

### Sewer Systems—Construction

The Case for Glazed Clay Pipe	Jan.—124
Municipality and Industry Join in Sewerage Project	Apr.—112
Interceptor Route Chosen to Stay in Rock Formation	May—88
Pollution Abatement Program Helped by Abandoned Water Line	Jun.—112
Precast Outside Drop Manholes Use Rubber Gasket Joints	Jul.—93
An Interstate, Underwater Sewer Line	Jul.—108
Installation of PVC for Sewers Proves Successful	Aug.—101
Extensive Sewerage Will Curb Pollution of a Bay	Oct.—104

### Sewer Systems—Design

Interceptor Route Chosen to Stay in Rock Formation	May—88
Pollution Abatement Program Helped by Abandoned Water Line	Jun.—112
An Interstate, Underwater Sewer Line	Jul.—108
Extensive Sewerage Will Curb Pollution of a Bay	Oct.—104

### Sewer Systems—Maintenance

Cleaning Program Updates Sewer System	Apr.—174
Electronic Witch Takes Guesswork Out of Pipe Finding	Jul.—101

### Sewage Pumping

That Attractive "House" May Be a Pumping Station	Apr.—86
Variable Speed Pumps at Lake Merced Sewage Pumping Station	Aug.—132

### Storm Drainage

Drainage and Best Use of Urban Land	Feb.—88
Leaves Won't Clog This Catch Basin	Mar.—90
Treatment Plant Located on Former Landfill Site	Jun.—105
Storm Sewer Tunnel "Threads the Needle" Between Highway Bents	Aug.—95

### Sewage Treatment—Design

Design and Maintenance of Extended Aeration Sewage Treatment Plants	Jan.—70
Waste Treatment Plant Designed for Odor Control	Feb.—116
The Beginning of Waste Treatment—Part I	Feb.—72
The Beginning of Waste Treatment—Part II	Mar.—74
Glass-Lined Pipe Stops Grease Build-Up Problem	Mar.—95
Water Consumption and Sewage Flow at State Institutions	May—76
Highway Location Prompts Consolidation of County Sewer Districts	May—99
Treatment Plant Located on Former Landfill Site	Jun.—105
Volume Analysis for an Equalization Tank	Jul.—83
Two Very Large Sewage Treatment Installations	Aug.—70
Flood Control Prompts Sewerage Construction	Aug.—115
Joint Action Assists Pollution Control	Sep.—122
Water and Sewage Flow Rates in Public Schools	Nov.—80
How Florida's Sanitary District Law Has Helped Pinellas County	Dec.—71
Stress on Water and Sewage Works Due to Heat Transfer	Dec.—75

### Sewage Treatment — Industrial Waste

Waste Treatment for a Paper Specialty Mill	Feb.—164
Municipality and Industry Join in Sewerage Project	Apr.—112
Volume Analysis for an Equalization Tank	Jul.—83
Dewatering Sludge from Paper Mill Wastes	Jul.—126
Reverse Procedure—Pumping Into a Well	Sep.—84

### Sewage Treatment—Construction

Design and Maintenance of Extended Aeration Sewage Treatment Plants	Jan.—70
Sewer Restored by Gunite Process	Feb.—103
Chemical Conveyors Cut Waste Treatment Costs	Apr.—102
Sluice Gates in a Sewage Treatment Plant	Jun.—82
Solving Lubrication Problems at a Sewage Treatment Plant	Jul.—103
Digester Cleaned by Utilizing Gas Circulation	Aug.—72

## Treatment Methods and Research

The Syndet Problem After Five Years of Progress	Jan.—82
Use of Copper Sulfate in Water and Waste Treatment	Jan.—95
BOD Data Retrieval Through Frozen Storage	Mar.—88
The Skeptics and the Septic Tanks	Apr.—70
Chemical Conveyors Cut Waste Treatment Costs	Apr.—102
"Watch on the Raritan" Monitors	May—112
Water Quality	Jun.—78
Trends in Sewage Treatment	Jun.—94
Municipal and Agricultural Pollution	Jul.—83
Volume Analysis for an Equalization Tank	Aug.—74
Sludge Treatment and Disposal	Aug.—124
Sludge Disposal by Flameless "Burning"	Sept.—107
Anaerobic Waste Treatment Fundamentals	Oct.—123
Part 1—Chemistry and Microbiology	Nov.—91
Part 2—Environmental Requirements and Control	Dec.—95
Part 3—Toxic Materials and Their Control	Nov.—91
Part 4—Process Design	Oct.—130
Algae Problem Prompts Sewage Treatment Study	Nov.—73
Preserving Domestic Waste Samples by Freezing	

## Costs

Problems of Wastewater Disposal in Suburbia	Mar.—120
Centrifuge Reduces Sludge Disposal Costs	Jul.—133
Pollution Abatement Progress in Ohio	Sept.—100
Operation of Miami Sewage Treatment Plant	Oct.—174

## WATER SUPPLY AND PURIFICATION

### Finance, Legal and Planning

Decision-Making in Water Resource Development	Jan.—54
Water for an Island City	Jan.—76
Water Use and Population Predictions	Jan.—126
Water Plant Design Provides Space for Expansion	Feb.—98
Master Plan Permits Water System Improvements to Pace Demand	Apr.—96
A Water System Designed to Attract Industry	May—118
Dallas Water Supply Planned for Year 2000	Jun.—90
The Problem of Multiple Metering	Aug.—85
Water for Wauwatosa Through 1980	Sept.—114
Collection and Use of Distribution Operations Data	Sept.—127
Conversion to Quality Water Results in Water Conservation	Oct.—106
Water Supply Improvements Will Meet Heavy Demands	Nov.—97
Mt. Dora's Versatile Utility Truck	Nov.—132

### Water Pumping

Fish Facilities Require Tremendous Pumps	Feb.—91
Diesel Engines Drive Big Water Pumps	Feb.—104
Standby Power for Denver Water Works	Apr.—144
Emergency Power For Deep Well Water Supply	Aug.—148
The Importance of System Head Curves	Oct.—118

### Reservoirs and Tanks

Quenching the Big Thirst	Feb.—118
Design Criteria for Water Distribution Storage	Mar.—102
Reservoir Rehabilitated With Butyl Rubber Lining	Mar.—116
High-Strength Steel Cuts Water Tank Costs	Mar.—156

## Supply Lines and Distribution

Computer Streamlines Pipelaying Schedule	Jan.—67
Water Line Like New After Four Decades	Feb.—152
Leak-Finding Survey Saves 300 MG Per Year	Apr.—84
Water System Freeze-Ups Can Be Prevented	Apr.—109
A Water System Designed to Attract Industry	May—118
Electronic Witch Takes Guesswork Out of Pipe Finding	Jul.—101
Water for Wauwatosa Through 1980	Sept.—114
Tough Rock Trenching Not a Serious Problem	Sept.—166
Anti-Corrosion Anode for Water Main	Oct.—176

## Water Treatment—Design and Operation

Water Plant Design Provides Space for Expansion	Feb.—98
Valveless Filter Installed for Iron Removal	Mar.—109
Master Plan Permits Water System Improvements to Pace Demand	Apr.—96
Potassium Permanganate Shipped in Bulk for Greater Economy	May—122
Dallas Water Supply Planned for Year 2000	Jun.—90
New Water Treatment Methods Serve Richland	Jul.—86
Weighing Ton Chlorine Containers Plant Growth and Operating Experiences	Aug.—117
Water Consumption and Sewage Flow at State Institutions	May—76
Water and Sewage Flow Rates in Public Schools	Nov.—80
Water Supply Improvements Will Meet Heavy Demands	Nov.—97
Stress on Water and Sewage Works Due to Heat Transfer	Dec.—75

## Instrumentation and Process Control

A Meter Modernization Plan	Mar.—162
Command Post for Complex Water System	Jun.—102
Zeta Potential Controlled Plant Treats a Difficult Water	Sept.—102

## Treatment Methods and Research

Research on Fluoride Content	Jan.—58
Use of Copper Sulfate in Water and Waste Treatment	Jan.—95
Use of Potassium Permanganate in Water Treatment	Feb.—112
Valveless Filter Installed for Iron Removal	Mar.—103
Safe Disinfection for Household Water Supplies	May—95
New Water Treatment Methods Serve Richland	Jul.—86
Desalinization by Osmosis	Jul.—140
Simple, Effective Water Treatment with Two-Valve Diatomite Filter	Aug.—108
Zeta Potential Controlled Plant Treats a Difficult Water	Sept.—102
Conversion to Quality Water Results in Water Conservation	Oct.—106
Fluorescent Techniques Expedite Water-Flow Tracing	Nov.—96
Organic Pesticides and Water Pollution	Dec.—84

## Water Supply and Sources

Decision-Making in Water Resource Development	Jan.—54
Water for an Island City	Jan.—76
The Syndet Problem After Five Years of Progress	Jan.—82
Quenching the Big Thirst	Feb.—118
Ground Water Contamination in Two New England Communities	Feb.—162
Ground Water Located by Electronic Gravel Detector	Mar.—84
Precise Measurement of Water Levels in Wells	Jun.—78
Dallas Water Supply Planned for Year 2000	Jun.—90
Pesticide Residues in Water	Aug.—70
Potable Water Drawn from an Abandoned Oil Well	Nov.—79
Stopping a Salt Spring	Nov.—146
Civil Defense Aids a Small City	Dec.—78
Gas Utility Helps Relieve Water Shortage	Dec.—124

## ADMINISTRATION AND PLANNING

Status Board Promotes Office Efficiency	Jan.—98
The Municipal Role in Urban Transportation Planning	Feb.—105
Education and Training of Public Works Personnel	Mar.—68
How a County Uses CPM	Mar.—92
Accurate Records Support "Best Bid" Equipment Purchases	Mar.—114
Urban Planning and Public Works	Apr.—104
Planning Advances for Public Works Set	May—74
Public Works, Imagination and Salesmanship	May—84
Base Mapping and Its Benefits	May—120
What You Should Know About the Clean Air Act	May—156
The Big Problem of a Small City	Jun.—99
Measuring Maintenance Performance	Jul.—80
Incinerator Model Convinces Public	Jul.—94
Annexation by Ordinance	Aug.—97
In-Service Training for Maintenance Supervisors	Aug.—142
Engineering Drawings in a Hurry	Sept.—120
Small City Centralizes Municipal Services	Sept.—182
A Five Year Plan: Modern Machinery for a Small City	Oct.—112
Computer Aids in Urban Transportation Planning	Oct.—128
Functional Public Works Center	Dec.—82

## DAMS AND FLOOD CONTROL

Drainage and Best Use of Urban Land	Feb.—88
Fish Facilities Require Tremendous Pumps	Feb.—91
Floods Intensify County Work Load	Apr.—160
Earth Dams and Earthquakes	May—142
Scioto River Development	Jun.—84
Design of a Small Flood Control Spillway	Aug.—112
Diesel and Electric Pumps Teamed for Flood Control	Sept.—128
Soil Conservation Program Replaces County Bridges	Nov.—100

## INSECT AND RODENT CONTROL

Rat Control in London	Jul.—131
Pesticide Residues in Water	Aug.—70
Eliminating Pests from a Pool Facility	Oct.—132
Organic Pesticides and Water Pollution	Dec.—84

## PUBLIC HEALTH

A Whale of a Problem	Jan.—80
Illegal Heaters Seized and Destroyed	Mar.—108
Health Department Role in the Los Angeles Reservoir Failure	Apr.—116
What You Should Know About the Clean Air Act	May—156
Pesticide Residues in Water	Aug.—70
Controlling Importation of Mediterranean Snails	Oct.—86
Tidal Wave Creates Sanitation Problems	Dec.—68
Organic Pesticides and Water Pollution	Dec.—84

## RECREATIONAL FACILITIES

Planning a Public Marina	Feb.—109
Designing a Public Marina	Mar.—111
Soil Stabilizer Helps Create Recreational Areas	Apr.—101
Managing a Public Marina	Apr.—118
Renewing a Failing Swimming Pool	Sept.—185
Kentucky Fights Litterbugs	Oct.—103
Modernizing Docking Facilities for Small Boats	Oct.—109
Beach Sanitizer Restores Pristine Appearance	Oct.—162
New Life on the Barge Canal	Nov.—99

## CIVIL DEFENSE AND EMERGENCIES

	Month and page
Health Department Role in the Los Angeles Reservoir	Apr.—116
Aftermath of An Emergency: Providing Access and Clearing Debris	May—103
Aftermath of An Emergency: Restoration of Sewer Service	May—106
Tidal Wave Creates Sanitation Problems	Dec.—68
Civil Defense Aids a Small City	Dec.—78

## GENERAL AND MISCELLANEOUS

In-Service Training for Pre-Engineering Technicians	Feb.—107
An Effective Municipal Eye Safety Program	Feb.—170
Noise Reduction at a Midwest Power Plant	Mar.—138
Usage of Rest Areas on Interstate Highways	Apr.—198
CFA Loans Speed Local Public Works	May—140
New Ideas in Concrete Give Treatment Plants a Modern Look	Jun.—124
Scale Models in Hydraulic Engineering	Jun.—176
A New Method of Visual Aids Preparation	Jun.—188
The Bituminous Pipe Institute Archaeological Reconnaissance and Highway Location	Aug.—104
Joint Filler Solves Complex Expansion Problem	Aug.—158
Jet-Age Airport for a County	Nov.—82
Utility Fleet Converted to L-P Gas Fuel	Nov.—110
Uniforms for Sanitation Personnel	Nov.—122

## LEGAL ASPECTS OF PUBLIC WORKS

"Decision of City Engineer Under Construction Contract"	Jan.—60
"Smoke Ordinance Attacked as Unconstitutional"	Jan.—60
"In Operation of Village Dump"	Jan.—60
"Regulation of Water and Sewer Rates"	Feb.—80
"Retainer Fee in Sewer Construction Contract"	Feb.—80
"Notice of Street Defects by Municipal Employees"	Mar.—150
"Child Hurt Playing on Drainage Pipe"	Mar.—151
"Authorization for Extra Work On Water Main Construction"	Apr.—188
"Authority to Determine Water Rates"	Apr.—188
"Cost of Removing Political Posters"	Apr.—188
"Damages Caused by Sewage Disposal Plant"	Apr.—190
"Sanitary Sewer Connection; Tap-In Ordinance"	Apr.—190
"Injunction Sought Against Storm Sewer"	Apr.—190
"Setting of Electric and Gas Rates"	Apr.—190
"Maintenance of Sidewalk Within State Road Right of Way"	May—66
"Special Assessment for Water Storage Tank Construction"	May—66
"Special Assessments for Public Improvements"	May—66
"Fluoridation of Public Water Supply"	May—66
"Extension of Municipal Water System"	Jun.—60
"Damage From Flooded Sewer Line"	Jun.—60
"Sewer Trunk Line Construction"	Jun.—60
"Lagoon-Type Sewage Disposal Unit"	Jun.—60
"Sewer Assessments: Benefit Method vs. Front Foot Method"	Jul.—60
"Liability of City in Sewer Construction"	Jul.—60
"Reduction of Special Assessment"	Jul.—60
"Sewer Rental Charge"	Aug.—66
"Public School Property Immune From Sewer Assessments"	Aug.—66
"Liability Following Temporary Street Repair"	Aug.—66
"Fluoridation of Chicago's Water System"	Sep.—78
"Contract For Sewer Service Extension"	Sep.—78
"Bond Issue For Improvement of Highways"	Sep.—80
"Snow Removal Operations"	Oct.—66

	Month and page
"Construction of Private Sewage Systems"	Oct.—68
"Loose Water Meter Lid"	Oct.—68
"City's Duty to Lock Water Meter Box Lids"	Nov.—54
"Firemen Held Engaged in Public Works Activities"	Nov.—54
"Exclusive Franchise To Collect Garbage"	Nov.—54
"Improvement of Water Works System"	Dec.—50
"Injunctive Relief Against Water Line Assessment"	Dec.—50
"Creation of Cul-de-Sac"	Dec.—50

## ABOUT OUR COVER

W. J. Burmeister	Jan.—1 & 18
D. Grant Mickle	Feb.—1 & 18
John E. Kiker, Jr.	Mar.—1 & 18
Richard Gallagher	Apr.—1 & 18
Karl B. Stallings	May—1 & 18
Bruce E. Sasse	Jun.—1 & 18
Alger F. Malo	Jul.—1 & 18
George H. Hyland	Aug.—1 & 18
Arthur D. Caster	Sep.—1 & 18
Frank J. Lucia	Oct.—1 & 18
Gordon E. Bodien	Nov.—1 & 18
Amos J. Alter	Dec.—1 & 18

## AUTHORS

Abbott, R. A.—"Three-Dimensional Approach to Highway Design"	Nov.—102
Alter, Amos J.—"Stress on Water and Sewage Works Due to Heat Transfer"	Dec.—75
